THE OLD CLOCK.

The Timepiece That Has Done So Long, Gives Out.

What a story the clock tells as it ticks, ticks, ceaselessly measuring out the seconds of time unerringly and diligently through sunshine and storm. The timepiece keeps faithful watch through the stillness of the night and the noise and din of day, always faithful, never ceasing as long as its works are kept in order. There comes a time, however, when the old clock ceases to tick, the old heart stops its beating, and the once faithful hands do not point aright.

A little oil, a few screws tightened by one who knows its needs, and again the familiar tick is heard, precise and regular as of old.

The human body is but a clock constructed by the Divine Maker. How faithfully the heart beats, how the blood runs from one portion of the body to the other, just as mechanically as the working of the clock.

There comes a time, however, when the force that drives the human clock becomes less strong, gradually the ticks grow fainter as the days go by and ripen into months and the months into years. The human clock must be repaired at once. It won't do to wait until it ceases to tick, for then it will be forever too late.

The blood that furnishes all the life in the human clock, in time becomes impure and clogs the liver, and the bowels and stomach refuse to do their work. Like the mechanical clock, it must be cleaned and repaired.

Remove the cause of the trouble and the great human clock will run on as before. The discovery of a new combination of remedies that will purify the blood, tone up the entire system and place the liver, stomach and bowels in a natural, healthy condition has been a boon to suffering mankind. This new remedy is called Knox Stomach Tablets. They make strong, healthy men and women out of invalids and bring back the glow of health to the cheek.
